FROM THE STORY BY GEORGE ADE

A Comedy romance written by America's foremost humorist, George Ade. This is a sparkling, happy picture in which a small town girl takes and reduces the "swelled" head of the biggest catch and social lion in the state. Laughter, heart interest and suspense are in this entertainment which incidentally shows American life as we all know it.

VULCAN, ALBERTA

IN AND AROUND THE CLUB

The Indians and ourselves had a great time at the Welsh football game if you don't believe us ask Jack.

How much money are you going to lose at the races on Friday and Saturday?

Fishing season has started, but to date we have heard no fish stories.

We saw wee Broom in Calgary last week. He says he is sitting on top of the world. He means the Palliser.

S. and M. are very quiet these days. Guess their last big deal did not turn out a success.

The girls in Barons must be better than most when they give you their correct telephone number. Eh Cousin?

The Major says the Bubbyjocks will beat Vulcan if he has to play till he is sixty. He might improve with age, who can tell?

Wonder what Jack thought of his early morning visitor last Thursday.

Tommy Coulter has gone to Calgary to play for Hillhurst. Tommy should make them all step up there.

There will be no sports here on July 1st, so you had better make up your mind to celebrate on June 21st and 22nd.

GOOD DEEDS W. I.

The Good Deeds W. I. met at the home of Mrs. Russell, Thursday, June 13. Meeting opened by singing O Canada, repeating the Creed and saluting the flag.

Mrs. H. I. Montgomery, president, in the chair. The Institute will entertain Vulcan, Kirkcaldy, Champion and Golden Rule W. I.'s to a social afternoon, Wednesday, June 26 at the Alston hall. Mrs. Hungerbuhler's report of provincial convention was read. Mrs. Hungerbuhler also told of her trip and thanked the W. I. for sending her. Roll Call was answered by health hints. Mrs. Homer Thorne thanked the Institute for the bank account opened for her infant son. Mrs. Phillips also sent a word of thanks for fruit and visits from W. I. members.

Money for delegate to convention: \$10; other bills \$2.50; tea money \$2.25 dues 50c; ladies present 22. Next meeting July 11 at Mrs. J. J. Shaw's. The roll call will be answered by bright sayings of children, and Mrs. Elton Nilley will give a paper on Child Welfare.

Messrs. F. M. Anderson & Co. listed in their advertisement last week, and again this week, some after supper specials for Saturday which are well worth the attention of buyers. This feature will be advertised from time to time and, doubtless, will prove an attraction to Saturday night shoppers.

Mr. Dave Seaman of Oskolusa, Iowa, arrived in town on Saturday night by train. He expects to spend the summer in this district.

Mrs. E. R. Kuykendall sent to this office Tuesday, a perfectly healthy, newly-hatched Plymouth Rock chick with three legs.

Mrs. B. Mensinger and family left last week for Grande Prairie where she expects to spend a few weeks with her parents, Mr. and Mrs. Base.

FORMER RESIDENT DEAD

The following, from the Albertan, will be read with regret by many here Mr. Stewart was a resident in Vulcan for six years and was much esteemed.

The body of Francis John Stewart, 13 years old, of Delia, Alta., who died in a local hospital Wednesday, was interred in the cemetery at Morden, Man., Sunday.

Born in Fletcher, Ont., in March of 1887, the deceased moved with his parents to Manitoba in 1892. He received his education there and received his teacher's certificate at the Normal school in Winnipeg in 1904. In the same year he entered the Bank of Commerce at Portage La Prairie. Nine years ago he moved to Alberta, being appointed branch manager of the bank at Vulcan. In 1926 he was transferred to Delia and resided there until his death.

Besides his widow and three children of Delia, Betty, 9 years old; Jack 7 years old, and Billie, 4 years old, he is survived by a brother and six sisters, Mrs. Manson, Spruce Lake, Sask.; Dr. D. A. Stewart, Ninette, Helen G. Stewart of New York City; Mrs. McKellican and Miss H.J.H. Stewart, Winnipeg.

MASONS AT CHURCH ON SUNDAY NEXT

Members of Vulcan Lodge, No. 74, and visiting brethren are specially requested to attend divine service at the Anglican Church, Vulcan, on Sunday morning next, June 23rd, at 11 o'clock. Rev. D. F. Kemp will deliver an appropriate address. The notice for last Sunday was inserted through a regrettable error.

Mr. and Mrs. Guy Denbigh motored to Calgary for the week end to attend "The Desert Song."

Miss Francis Gilker who has been spending the past few months in town has accepted a position in Calgary.

MISS HOGE SHOWERED

Clover Leaf Rebekah Lodge also gave a miscellaneous shower for Miss Hoge after the ceremony of initiation at their regular meeting.

Miss Marjorie Lommatzsch pulled into the room a wagon decorated with pink and green ribbon and roses, laden with gifts from the sisters of the lodge for the bride-to-be and these were suitably acknowledged by Miss Hoge and also by the prospective bridegroom, Mr. Wm. Upton. Refreshments were served and much enjoyed.

During the evening "Bill" had to put up with quite a lot of good natured railway which he took in the spirit in which it was intended. Everybody enjoyed the very pleasing function.

A very enjoyable evening was spent at the home of Mrs. Frank Clark on Friday last, when a miscellaneous shower was given in honor of Miss Ella Hoge, well known Vulcan girl. The rooms were decorated in lilac. The bride-elect was presented with the gifts from a treasure hunt and each parcel was wrapped in lavender paper. The evening was spent in games and contests, the winners being Mrs. F. Simington, Mrs. Kettleson Mrs. Jack Marshall, Mrs. Geo. Todd, Mrs. Billy Peterson.

A dainty luncheon was served at midday by the hostesses Mrs. F. Clark and Mrs. McPherson, thus bringing a very enjoyable evening to a close.

OBITUARY

Mrs. Jim Shaw, who has been a resident near the Little Bow for several years, passed away in the Holy Cross Hospital, Calgary, on Tuesday morning after an operation. It was reported that she was improving but unfortunately she was unable to stand the shock. She leaves to mourn, her husband, three daughters, and three sons.

The funeral took place in Calgary today.

Mr. Dave Seaman of Oskolusa, Iowa, arrived in town on Saturday night by train. He expects to spend the summer in this district.

Mrs. E. R. Kuykendall sent to this office Tuesday, a perfectly healthy, newly-hatched Plymouth Rock chick with three legs.

Mrs. B. Mensinger and family left last week for Grande Prairie where she expects to spend a few weeks with her parents, Mr. and Mrs. Base.

CHURCH OF CHRIST NEWS

Sunday, June 23 services will be conducted as usual by J. W. Jenkins of Aldersyde. We urge you to attend Sunday school at 11:30. Christian Endeavor at 7:15 and the usual evangelistic services at 8 o'clock. Come and bring your friends.

VULCAN COMMUNITY MEMORIAL SERVICE

Samaritan Lodge, I.O.O.F. and Clover Leaf Rebekah Lodge Conduct Annual Rite.

Sunday last was an important day in the year for Oddfellows and Rebekahs; being the occasion of the annual memorial service. This was held in the rink and was largely attended, not only by members of the local lodges but by brethren and sisters from other points, and a fair assembly of the general public.

Members of both orders assembled at Oddfellows' hall and marched to the rink, headed by Vulcan Citizen's Band. Here an impressive service was held, of which the program is attached:

Massed Sing, "Lead Kindly Light," led by band; Prayer, Rev. D. F. Kemp Solo, "Abide With Us," Mr. Ottewill; Address, Rev. J. N. Brunton; Solo, "The Broken Pinion," Miss Gothard; Address, Rev. Mr. Hokin; Solo, Massed Sing, "Abide With Me"; Benediction, Rev. D. F. Kemp.

Rev. J. N. Brunton first spoke in feeling terms of the death of the late F. J. Stewart, and, proceeding, spoke of the beautiful custom of remembering departed friends, and of faith in the mercy of God. The address was an inspiration to all, especially to the members of the lodges represented.

Rev. Hokin, Solo, spoke eloquently of the aims and achievement of both orders, especially as regards the widows and orphans of departed brethren.

The following program was then carried out: march to hall; proceed to cemetery; prayer, Chaplain Clover Leaf Rebekah Lodge; taps and decoration; formation of cross; band "Nearer, My God to Thee," dedication address, Noble Grand Samaritan Lodge, prayer, Chaplain.

The committee in charge desires to thank all who in any way assisted in making this occasion so great a success.

SUCCESSFUL CANDIDATES

At the recent examinations of the all the candidates entered by Miss Ruby Graham, were successful: Associated Board of the Royal College and Royal Academy of Music, School Examinations—Marjorie McCullough, primary division; Flora Gill primary division.

Local Centre Examinations—Rheta Campbell, Rudiments of Music.

BIG SPORTS MEETING STARTS TOMORROW

Young and old alike are looking forward to the two days sports being promoted by the local branch of the Canadian Legion on Friday and Saturday, June 21st and 22nd.

This is the first attempt of this organization in the promotion of this class of sport, but they have shown commendable foresight in gathering around them men who are experts in the different lines of sport, and with the weather being favorable a huge crowd is anticipated, especially as there will be no celebration here on July 1st.

We are informed the baseball teams of Blackie, Carmanay, Lomond and Vulcan are being strengthened considerably for the occasion and great contests should result with plenty of snappy baseball.

The entries received to date for the horse races exceed all expectations reflecting the enthusiasm that Lou Douglass has infused into his task. The track is being put in first class shape, and lovers of the "king of sports" should witness races that will live long in their memories.

Mention must also be made of the Roman Chariot Races in which the Indians are entering. Those who have witnessed this race at the Calgary Stampede will appreciate the spectacle of thrills and spills and the fun from start to finish.

The local football team will have most of their old players back for this game, and with Galt United team living up to advance notices a great game should result with the local boys ultimate winners.

The basketball boys expect to have Lethbridge High School team as their opponents on Saturday. This game is gaining in popularity right along, and doubtless many who have never seen the game will become enthusiastic after witnessing the exhibition provided by these boys.

Of course the lovers of dancing are being cared for. The arrangements for music are in the capable hands of Frank Bird, and the floor management is in the experienced hands of Walter Mays with a staff of competent assistants.

The midway, as always, will be a great attraction for everybody, and the refreshment booths will cater to the hungry. Nothing is being left undone to make this sports meeting one to be remembered.

TO SUPERINTEND SPORTS

Mr. L. Nichols of Youngstown has been secured by Vulcan Athletic Association to superintend sports activities for 1929; he comes with a wide experience and the best of recommendations as to his qualification for the position, and is expected to take up his duties on July 1st.

CELEBRATION POSTPONED

The usual Dominion Day celebration in Vulcan under the auspices of the Town Council, will, this year, be held at a later date. The two days' sports arranged by the Legion for this week, the visit of the circus on the 25th of this month, and the difficulty in securing baseball teams to compete on July 1st, are among the reasons for the postponement. This event will probably take place during the month of July, and due notice will be given.

A very successful tea was held by the tennis club on Wednesday afternoon, June 13, at the courts. Everybody had a most enjoyable time and owing to the success of the event it was decided to hold similar functions frequently.

TOWN FATHERS PLAY SOFTBALL

The town fathers decided to form a soft ball team and to issue a challenge for a game. The oil maggies heard of this and accepted the challenge before it got to the press. The game will be played this evening and the following is the line-up:

Town Fathers—Butchart, Flood, McQueen, McAskie, McInnes, Allan, Simington, Elves and Collier.

Oil Maggies—Barker, Peterson, Stack, Jones, Graham, Sutherland, Wright, Maher and King. Substitute W. S. Hill.

Details of play and result, will be printed next week.

VULCAN VS. UNION JACK

The above teams met last Friday and enjoyed a good game on the Vulcan ground. The ball was kicked off at 7:30 and the locals, losing the toss, were obliged to play against a bright sun.

Union Jack defended strongly for the first 45 minutes, until a good pass from the right wing, which Thorpe converted for the first goal. The visitors missed some good chances, and E. Love got a good run and had an open goal, but just could not find the net. Score at half time: Vulcan 1; Union Jack 0.

After the teams crossed over, Vulcan got down to work just to show how it can be done, and registered four more goals. Anderson got a good pass but failed to get the net, securing instead a corner from which Jones found the back of the net, off his head.

Union Jack then kicked off and Colter secured the ball which he passed to Hetherington who, in turn, put it across to Anderson who got another corner goal, also off his head. Anderson got a nice pass from the inside had the Major guessing, and slipped the ball into the net. The visitors then got a break, and E. Love their centre forward, had it all his own way but he forgot about the goalkeeper, who came out to meet him and took away the chance of a lifetime. After the Vulcan kick-off, Wilson got the ball and slipped it to Hetherington, and after a nice cross, Thorpe got the ball with his head, and scored.

Dorrington and McKinnon were easily the pick of the Union Jack team, while Vulcan's best were J. Collier, Alex. Hetherington, Anderson Wilson and Thorpe.

Owing to the uncertainty of the date of the game, there was a fair attendance. The line-up was as follows:

Union Jack—Irvine, goal; McKinnon, Dorington, backs; Wyatt, Turner, McMillan, half backs; Dickie, F. Wyatt, Love, Dahl and Marshall, forwards.

Man; Mrs. C. T. Sharpe, Isabelle and Vulcan—Collier, goal; Heddie Hetherington, backs; Beecham, Colter, Conn, half backs; Anderson, A. Hetherington, Wilson, Thorpe and Flynn, forwards.

Referee—C. McInnes; Linesmen—C. Ottewill, Vulcan, and Mart Jose, Union Jack. Final Score—Vulcan 5, Union Jack 0. Goal scorers—Thorpe 3, Wilson 1, Anderson 1.

UNITED CHURCH NOTES

Rev. J. N. Brunton will conduct divine services next Sunday morning and evening. At Berrywater at 2:00 and Red Cross at 3:30 p.m. Come munition service the last Sunday in June at the morning service.

PRAIRIE OIL AREA

"Alberta fields are geographically situated to compete with the largest oil fields in the world and are of Empire magnitude," declares Campbell Hunter, consulting engineer and oil expert of London, England, who is visiting the oil districts of Alberta.

"Oil may be shipped by several routes to the Pacific or Atlantic and overseas shipping can be done by the Hudson Bay route. At present Turner Valley and other fields are in the limelight, but it is my belief that the prairies will furnish oil for high grade naphtha. I foresee the day when Canada will be independent of all oil imports.

The whole Alberta industry is broadly conceived on well established lines. "Generally the industry in the province is organized on sound lines and this will soon win the confidence of overseas investors and continue to do so. I have come here as a connecting link between British capital and Canadian oil development," said Mr. Hunter. "My object is not only to get in touch with oil developments but to keep in touch with them so that a channel can be established to that British capital.

"It will take time for investors in England to invest here, but as they get confidence there will be an increasing flow of money from overseas which is bound to speed development in Alberta," he said.

Two pickpockets had been following an old man whom they had seen display a fat wallet. Suddenly he turned off and went into a lawyer's office. "Good lor," said one; "a fine mess, we'll be do now?" "Easy," said his mate, lighting a cigarette. "Wait for the lawyer."

NOT OUR SHARE

The Calgary Herald in a pertinent editorial brings to notice the fact that Alberta is not reaping by an means, its reasonable share of tourist revenue. Out of \$167,384,000 Dominion tourist revenue, Alberta took \$763,000 which is \$300,000 less than Saskatchewan, \$1,600,000 less than Manitoba, and \$16,700,000 less than B. C.

The article goes on with the argument that Alberta is the gateway of the finest mountain scenery in Canada and of the finest mountain highways. Then why has Alberta such meagre tourist returns, compared with other provinces, with few natural beauties. The answer is that Alberta has earned a reputation for impassable wet weather highways.

The Herald maintains that the Alberta government is earning enough to carry out a much more extensive and thorough good roads program than she is doing. She is free of railway burden, has imposed a five cent gasoline tax and is imposing high taxes on motor licenses. It has also a large liquor revenue. Financially, it is able to go far in the matter of roads, and every season's inertia and delay is actually costing the country a liberal tourist harvest.

SUMMER SUNSHINE

Summer is nature's building season. We are learning how valuable the sun's rays are in preventing rickets and in enabling children to grow up strong and robust. Every opportunity possible should be taken to keep them out of doors in the months when the greatest amount of ultra violet rays reaches them. These rays do not pass through window glass or through even sheirrest clothing. For that reason, it is direct contact of the sunshine with the naked skin, which brings the benefit. So let the young people discard all superfluous clothing. The greater area upon which the ultra violet rays may fall, the better for the child. All may take the free sunshine cure.

All men are urged to study the characters of the girls they want to marry by watching them peel potatoes. If a girl peels thick rinds she is extravagant. If she leaves the eyes, she is lazy. If she uses a great deal of fat in the cooking she is greedy, and if she lets them burn, she is negligent. If a girl avoids all these pitfalls, she should be grabbed quickly, for she will prove a good friend and wife, bringing prosperity.

EDITORIAL COMMENTS

A witch doctor in Zululand ground up a gramophone record, diluted it with rain water and gave it to a very sick person who immediately recovered. Always did think gramophone records could be put to some good use.

Score another triumph for homeopathy.

Nevertheless there are some people and it would only make them sick to have to swallow their own records.

The apple of discord seems to be a Baldwin. Oliver of that ilk was elected as an opponent of his father.

Give a girl an engagement ring and you may get her but give her a vote and she is very likely to use it in favor of your rival. Witness: Stanley Baldwin, Sir Robert Borden and Sir William Hearst.

Lloyd George is not given an opportunity to reduce unemployment by improving the roads but he can use his time profitably by mending his ways.

A man may innocently or properly be in turmoil and trouble sometimes but it must be his fault if he is in trouble and turmoil all the time. This applies directly to a Toronto clergyman whose name is not mentioned because he loves publicity of any kind.

Stanley Baldwin says he is "tired of London." Perhaps that's why he went to the country.

In two thousand years we should have learned how to make good roads. At any rate we have had enough time to forget how to make poor ones.

Ramsay MacDonald's troubles are only beginning. His real difficulty is that he is the leader of a lot of followers who know so much more about political economy than he does.

The directors of the Bank of Montreal are defendants in an action because they subscribed \$150,000 toward a hospital in Montreal. They took the ground that business as well as sentiment constrained them to make such contributions and we suppose they would be subjected to much criticism if they refused, but where is the line drawn? At what amount and at what place? Shareholders and branches are scattered all over the Dominion, but we venture to guess that the city where the head office is located in the chief beneficiary of these contributions.

Politicians are ever striving for what they don't want. Those in power tell you they had a far better time when in opposition, but they work their heads off to remain in power while their opponents, who talked the same way when in power, strive mightily to regain the troubles and worries of government.

Advice to Canadian newspapers: Before commending Baldwin for giving up the reins of office look up your files to see what stand you took after the Canadian general elections of 1925.

Ramsay McDonald will not find much difficulty in carrying on for a year or two for the very good reason that no one wants another election. He will have to introduce some very drastic or objectionable legislation to align the Conservatives and Liberals against him. Moreover, he will have less difficulty than his rivals in keeping his followers in attendance because it is more of a novelty to them and they are more enthusiastic than the old-timers many of whom regard it as a bore. In time, however, he may find that enthusiasm is a real danger if he tries to restrain them in their forward march towards what they regard as the millennium.

WANT A RAISE

The laborers in the government vineyard are demanding more pay. The House of Commons members were raised in 1920 from \$2500 to \$4000, and it is doubtful if the public would feel enthusiastic over further increase. In fact, there are many who consider that it is unnecessary to have 245 representatives for 9,000,000 people, and that matters would be conducted quite as efficiently if there were fewer members of parliament. After all, the real work is done by a very few, who are worth a liberal salary. Most of the others just fall in line.

If the Federal House should wind up this quiet session by voting itself higher wages, it would certainly give the public something to talk about for the summer.

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

A SCHOOL CREED

A creed that has been adopted by certain schools in Wisconsin, might wisely be adopted by every school everywhere.

1. I believe in loyalty to my school to my home, to my city, to my province and to my nation.

2. I believe it is my duty to be careful of books and other school property which have been provided for me that I may secure an adequate education.

3. I believe that it is my responsibility to keep myself physically strong and mentally fit, realizing that my success in school and in life depends on a strong body and a sound mind.

4. I believe that school life is a part of the community life, and that as a student I have as definite responsibilities as the adult citizen.

5. I believe in democracy and the things for which it stands, and I shall miss no opportunity to prepare myself adequately for the responsibilities of citizenship.

The average cost per horse power for industrial power supplied in Toronto has again advanced, according to the report of the Ontario Hydro-Electric system. In 1927 it was \$24.81 per h.p. In 1928 it was \$25.05. Slowly the figure rises. In ten years it has risen from under \$20. Chippewa, it will be recalled, was to reduce power costs in Toronto.

CARELESS FIRES

During the year 1928, the Alberta Fire Commissioner had reported to his office 2351 fires, with a loss of 25 lives and over three million and a half dollars. More than \$557,000 of the total loss is attributed to nine fires. Carelessness is again the outstanding factor in these fires. If ordinary precautions had been taken, probably seventy-five per cent. of these fires would not have occurred.

In all, 757 cities, towns and villages were subjected to fire inspection last year and 1055 orders issued for the correction of defects. May of last year was the worst month of 1928 for fires with November coming next.

Two lives were lost at Brooks from drowning on Saturday last. This is the season for all to exercise care in going in for a swim.

CO OP MOVEMENT

Co-operative ventures have been made in three main lines (1) Consumers, (2) Co-operative credits, (3) Producers.

One great early consumers co-operative movement is that of the Rochdale Pioneers of England, started in 1844. This was the period of "the hungry forties," when machinery was ousting hand power. Forty-eight weavers managed to save \$5 each and with the capital of \$240, started a little grocery store. Their foundation principle was "An association for joint trading, originating amongst the weak and conducted unselfishly and on such terms that all prepared to assume the duties of membership, shall share in rewards to the degree to which they make use of their association." It was of unlimited capital, the capital increasing as the membership. Each member had one vote. Goods were bought and sold at current market prices. Profits were paid on a patronage dividend basis.

Today the Rochdale Co-operative plan has grown to an organization of about five million, with tea plantations in Ceylon, farms in Saskatchewan, etc.

A Co-operative Credit System was introduced in Germany in 1850 and rose from the inability of the small farmer to secure working capital from ordinary banks, and the extortionate interest charged by Jewish money lenders. The essentials of this system were the restricting of each society to a small, well defined area; the unlimited liability of all members; the practical use to which all monies must be put.

While this short term credits had grown to about 2000 societies prior to the war, in Germany, yet the system is not applicable to Western Canada where farming is on a loose large scale, and where large loans are required at times.

The Desjardines Banks in Quebec are the only example of co-operative banks flourishing in Canada. These have co-operative branches within the parishes, and the scheme has worked well partly because of common ideas and common religion, with the parish priest having considerable control.

Again this system could not operate with the same success in the West, where there are so many viewpoints, nationalities and ideas, and where large loans must be provided for.

The Producers co-operative system originated in Western Canada through the farmer's inability to produce his goods on a paying basis.

In the early days the farmers grew more wheat than the railroads could

take care of. To offset this, the railroads to patronize both railroads and grain companies to build elevators for the storage of grain. Farmers were obliged to patronize both railroads to grain companies. They were prevented from loading wheat over the loading platforms and were at the mercy of the combined strength of railroads and grain companies.

In 1906, however, the Grain Growers Commission of Manitoba was effective in securing a ruling by which the railroads provide sidings and loading platforms. The problem then was to get cars.

Various organizations spread thru the West to combat the transportation and other matters affecting the grain questions. In other phases of agriculture, co-operative systems were introduced in order to reach the markets more effectively. The Alberta Wheat Pool has been the greatest co-operative venture to date, organized for the effective marketing of this produce. Markets are of two kinds (1) direct and indirect. The indirect market involves sale to a middleman or through a middle man.

It is in taking upon itself many of the functions of the middleman that the Wheat Pool has brought vast relief. The functions of the middleman are transportation, grading, inspecting, processing, warehousing and storing; financing—advances to producers; selling of options; orderly management of the grain exchange.

The Pool has already accomplished much (1) in the assembling of the goods—owned elevators; (2) in grading and standardizing; (3) in pooling and mixing; (4) in reaching world markets, creating new markets; (5) in stabilizing prices.

The factors which will make for the

continued success and strength of the Pool are (1) the strong, legitimate need; (2) a sufficient volume of business; (3) fair competition; (4) efficient management and good service; (5) concentration on the main objective; (6) and firm loyalty on the part of members.

COST OF SICKNESS

Dr. McCullough of the Ontario Department of Health has figured that sickness is costing Canada \$311,060,448 a year, and this is merely the cost up to recovery or death. Another \$1,000,000,000 should be added for lost earning power. Of the \$311,060,448, eleven per cent. is paid by provincial or municipal public health activities and the other 89 per cent falls on individuals. If illness costs Canada in expenses and lost earning power \$1,311,060,448, this means \$131.10 per year per person.

Altogether, the Dominion, the provinces and municipalities spend a sum which amounts to 54¢ per head, per year.

The 54¢ public money does not seem adequate in the face of the \$131.10 actual cost.

FORD CAR HOUDAILLE HYDRAULIC SHOCK ABSORBERS

**Positive—Smooth—
Double Acting—**

HOUDEILLE Hydraulic Shock Absorbers, four to every Ford car, are entirely defensive in their action since they remain inactive and in neutral position on smooth roads. Let a wheel encounter the slightest depression or bump, however, and they respond with the velvet precision of a cat's paw.

Houdaille Shock Absorbers were not adapted to the Ford car after it was built, but were part of the specifications laid down by the Ford engineers as they planned the car. Therefore, Houdailles, their powerful operation coordinated, became integral parts of the complete chassis. It is for this reason that they function with such perfect efficiency on the Ford car.

Houdailles absorb both the upward and downward thrust of the shock through slowing the spring action by means of a heavy glycerine solution, which is forced through a small valve from one compartment to another. They check the rebound of the car softly, exert no tension on the springs and are always ready to offer resistance to the blow when and as required. In fact, the more severe the shock, the more effectively Houdailles operate.

Different from any other shock absorber, the Houdaille connecting link between the frame and the axle of the car is a steel arm, not just a fabric strip to wear out and be replaced. Adjustable to suit differing road conditions and various loads, the Houdaille is more than a shock absorber and more than a snubber.

Inspect the Ford car carefully part by part. Then know the thrill of driving it. By its performance you will realize the easy riding comfort of an Houdaille equipped Ford.

Arrange for your demonstration ride with the nearest Ford dealer

Wer'e Looking For You at The Alberta Institute of Co-Operation

Lethbridge, June 24, 25, 26, 27

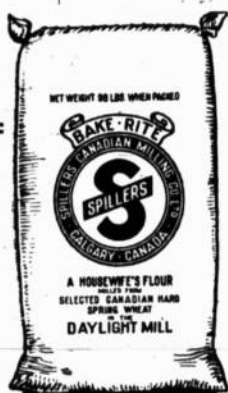

BECAUSE YOU WILL HAVE:

Four days in which to hear experts on co operative marketing, economics and farm problems. Opportunity to meet the leaders of the farm movement. A fine social time including banquet, picnic, and dances.

The men, women and juniors (17-21 years) of rural Southern Alberta are invited to become members. The registration fee for men and women is one dollar, and covers attendance at all lectures, admission to the banquet and dance and a copy of the printed report of the proceedings. Juniors get in touch immediately with the registrar for information as to free transportation and accommodation.

M. L. FRENG, Dept. of Agriculture, Lethbridge

Early registration is imperative to assist in billeting and banquet arrangements. For further details listen-in over CJOC (Publicity Committee).

THE TRACTOR Everybody's Talking About THAT'S THE TRACTOR FOR YOU TO BUY

PROGRESS is written on the farm horizon. Things are moving ahead. Out of date equipment is being abandoned. New and better power machinery is eagerly sought.

The reception of the new Model "L" Case tractor proves this beyond a doubt. From the moment the first machine was released, the interest in this new tractor has exceeded all expectations. In Kansas, in Texas, in California, in Pennsylvania, in Canada, wherever the tractor has been shown farmers have turned out in masses to see its performance and many features.

Here is a tractor that is truly designed and built for modern farming. It develops great power on drawbar or belt. Flexible power, too, that can be put to all-around usefulness. Yet, because of its compact design the tractor weighs but slightly more than three draft horses.

The remarkable ease with which the new Case handles comes in for much praise from farmers everywhere. They like its three forward speeds, 24, 34 and 4 miles per hour. They see the advantage of the accessibility of all its parts. They are quick to notice that the adjustable spring seat gives real riding comfort. The attractive appearance of the tractor is often commented upon.

The tractor everybody's talking about is the tractor for you to buy. Write now for complete details. "Case Quality Machines for Profitable Farming"

THE ARROWWOOD SPORTS

The Arrowwood sports day, postponed on account of rain, to June 8th, was held on Saturday, to the satisfaction of about one thousand spectators. All the features of the day were well organized and the program was executed in a very satisfactory manner.

The day opened with the children's sports and the junior baseball game between South Calgary High School and Arrowwood High School, starting at 10 a.m. and resulting in a win for the Arrowwood boys in the last half of the seventh inning of the seven-inning game, by a score of 9 to 8. The Calgary team was in the lead right up to the last inning when the local boys made the necessary hits to win the game. The game was close and very interesting to the spectators and the victory by the Arrowwood boys was well earned and needed to maintain their record to date of winning every game. The game as a whole was really better than some of the senior games that followed.

The main event of the day, the senior baseball tournament, began at one o'clock in the afternoon, with Blackie and Arrowwood contesting. J. Forbes of Calgary was pitching to Norton for Arrowwood, and J. Croddie and Phillips formed the Blackie battery. Forbes was unable to hold the Blackie batters and he was replaced by Bob Anderson, in the second inning who pitched an excellent game for Arrowwood, but received the poorest support ever demonstrated at a local tournament. The game ended with Arrowwood at the small end of the overwhelming score of 15 to 2.

The second draw—between Bassano and Queenstown—was the only good baseball played during the entire day. The Queenstown battery consisting of Allred and Walker held the Bassano team scoreless. The Queenstown nine were able to run in three scores from hits, gotten from Ed. Crullen, pitching for Bassano and supported by Ralph Burrows, behind the bat. Doug. Allred was the outstanding pitcher of the day, working in great form for Queenstown.

The final game between Blackie and Queenstown was called at the end of the fifth inning, on account of rain. The score was rather one-sided in this game too, ending 7 to 0 in Queenstown's favor. Anderson, who pitched for Arrowwood earlier in the day, was in the box for Queenstown and showed real form when he got the good support the Queenstown line-up was able to give him. If Arrowwood team ever get started playing baseball and give Anderson the support he deserves he is going to be one of the outstanding pitchers in the Bow Valley league and will be a dangerous man for the other teams to face. Speers was hurling for Blackie in the final game.

Probably the most enthusiastically received and most interesting event of the day was the girls' basketball game between South Calgary High School team, champions of city of Calgary, and the Arrowwood High School team. The game was more interesting for the reason that the two teams had met before on the Crescent Heights floor, when Arrowwood girls were unable to cope with the changed conditions resulting from lack of experience on a floor. It was a hard fought game from start to finish but at no time were the Calgary girls able to get the lead, secured by the Arrowwood girls in the first period. Interest grew intense towards the latter part of the game when there was only a difference of one basket between them. It was pandemonium, indeed, for the Arrowwood supporters when the final whistle blew, giving the game to Arrowwood with a score of 14 to 13. O. Larsen refereed the game with Holliday of Calgary assisting.

The remarkable feature of this victory of the Arrowwood girls is the fact the total enrollment of the Arrowwood High School does not exceed forty students. H. Vancil is the outstanding player of the Arrowwood team, having made ten of the fourteen points. She should do well on the Calgary Normal School team next season. The Arrowwood line-up was as follows: H. Vancil, lf; D. Vancil, rf; R. Martin, c; S. Duncan, rg; R. Bealge, lg; C. Christenson, A. Burger, F. Norton, J. Macleod, subs.

EAT MORE BABY BEEF

Mr. George Ross, enterprising Southern Alberta rancher, believes there is a grand opportunity here in Southern Alberta with its historical cattle ranges and its foothills to undertake the feeding of baby beef. Despite the U.S. tariff he believes that this sort of stuff can be shipped to the United States for immediate killing. He is of the opinion also that when the Hudson Bay route develops and cattle can be rushed to Churchill, loaded there on boat and sent across to the Old Country, a very large percentage of any surplus will be taken care of by the British market. Baby beef, he says, would lose very little going via the Hudson route; in fact, he thinks that once they were aboard boat they would actually gain on the voyage. And he thinks, too, that if Canadian consumers were given a chance to buy more baby beef that there would be far less surplus to send abroad or to the United States.

CHICAGO ETHICS

Over in Chicago there is a great deal of exultation because the lake levels have risen. But does the joy flow because of the relief to navigation which accompanies the rise? It does not. What creates the exultation is a hope that the increase in the content of the lakes may drown out evidence of the brazen theft of water through diversion into the drainage canal, of which the municipality has been guilty year after year, and which it still is trying to perpetuate in the face of an adverse supreme court decision, by resort to every sort of legal quibble and evasion it can invent. The Chicago Tribune, for example, announces with almost naive exultation. "The rebuttal comes with the rising levels."

Does it? It it does, then a man who systematically robs a neighbor is guilty of theft as long as the neighbor is poor and suffering. If through some gift of fortune, the victim becomes rich and prosperous in spite of the pilfering to which he is subjected, the thief is no longer a criminal and wrongdoer. His crime is justified. He has a right to continue committing it as long as he pleases. Is that Chicago ethics? — Detroit Free Press.

The warm sunshine and local showers are making the crops grow splendid.

RURAL HOSPITALITY

The city papers in Ontario are depicting the passing of the old farm hospitality of an earlier age. It used to be that book agents, implement men, peddlars and agents of every description could wander round the countryside and make pretty certain of bed and board. Grandmother never was sure just how many would "draw in their chairs" for a meal. This living off the country was grossly overdone, and while city people may deplore the cool withdrawal of promiscuous hospitality on the part of country people, yet it marks a happier time for the rural housekeepers.

In Southern Alberta, a healthy stand and even germination are reported for all crops. At certain points high winds have retarded growth somewhat but conditions generally are good with wheat standing four to six inches high. Fall rye, fall wheat, sugar beets are all coming nicely with no sign of any pests.

With the new seats installed and with the decoration practically complete the theatre looks very "cited".

Brewing is an Important Industry in Alberta

Few citizens give thought to what the Brewing Industry means to Alberta as an Industry, yet it is an important factor in the Industrial life of the Province.

It is not necessary to emphasize the millions of dollars invested in the industry. The point that should not be lost sight of is that there are hundreds of men steadily employed throughout the year in the brewing, storing and transporting of the products of the five great breweries of Alberta.

There is no industry in Alberta that spends more of its total income right in this Province than does the Brewing Industry.

BEER ALE STOUT

ASK HARRY
Mr. Harry Adams took
out one of our new 22-36
McCormick Deering tract-
ors last week. We could
tell you a lot about how
easy it handles a heavy
wheatland plow, and how
perfectly it burns kero-
sene, but if you are pass-
ing Harry's place stop and
see for yourself.

If your shoes squeak,
turn 'em upside down and
drive tacks into the sole.
Make the tacks inscribe
a circle or diamond shape.
This will stop all squeak-
ing.

"Fighting may be all
right—if you do it intelli-
gently."
"Yes, but you can't al-
ways find a smaller man."

The long curved shanks
and slowly revolving rod
travel along just under
the surface and pull out
every weed. Nothing can
escape the McCormick
Deering Rod Weeder.

Smart summer boarder:
"Well, Farmer Jones, what
did this chicken die of?"
(busily chewing a fried
wing)
Farmer, laconically:
"Throat trouble."

Don't put all your eggs
in one basket—try an
incubator.
"Where is the man that
you caught burgling my
house?" hurriedly asked
the home owner. "He got
into my house last night
without waking my wife,
and I have been trying to
learn that trick for ten
years."

Replacing an old worn
out machine with a new
one of larger capacity is
just like putting money
in the bank.

FIGURE THIS OUT
Strange customer: "I
want to buy pair of spec-
tacle-rimmed hornicles—er—I
mean sporn-rimmed hec-
tacles—confound it, I am
trying to say heckrimmed
spornacles."

Optician: "That's a all
right, my friend. I know
what you mean. Joe, show
this man a pair of rim
sporned hectacles."

The pictures we have
of Daniel in the lion's den
always show him with a
clam, serene expression.
Possibly that's because
he knows he will not be
called on to say a few
words after the meal.

Kilts are a Scotchman's
apology for indecent ex-
posure.

BASKETBALL GAMES

Playing a high calibre of basketball before a large crowd of fans, the Antrim ladies defeated the Vulcan ladies 8-0 and the Antrim Bearcats defeated the Vulcan Cubs 12-3 on the Antrim court on Saturday, June 15. There was no doubt as to the superiority of the winners in every department of the game. Their passing and combination plays were a revelation to the crowd.

First Game

The first period opened with Antrim hemming the Vulcan team in, about their own basket, but the ball proved elusive and the basket led a charmed existence. Finally, Vulcan relieved the pressure but found a stiff defence in Martha Leslie and E. McCullough. End to end play followed with the Antrim defense holding the Vulcan forwards at bay. The period ended with the score 0-0. Both teams came on resolved to score in the second period. Antrim secured at the beginning and quick as a flash, V. Martin, who had been playing a stellar game up to this time, scored a field basket. Mary Leslie followed with another. Vulcan attempted to stem the tide and when it seemed that they must score, Martha Leslie secured, and dribbling the length of the court scored. Then V. Martin who was displaying uncanny ability in evading her checks, took a pass from R. Martin to send the indicator to 8-0.

Martha Leslie was outstanding in her strong defensive play, while R. Martin and V. Martin, excelled at forward.

Men's Game

The Antrim Bearcats by winning their game 12-3 against the Vulcan Cubs, won the round 24-19. The first period opened with fast end to end rushes. Finally the Bearcats hemmed the Cubs in about their basket, and Hugh McCullough opened the scoring with a field basket. Leckie followed suit with a second basket. At this juncture the Antrim defense were dominating the play. Vulcan relieved but were forced to shoot from long distance. Harry McCullough took a pass from Leslie and sent the score to 6-0 to end the first period.

Following the interval Vulcan seemed possessed to score but good defensive play held them at bay. Finally the Cubs scored two free throws. Martin demonstrated his prowess by scoring. Clarke retaliated with a free throw for Vulcan. The Antrim team were now working together like a well-oiled machine and Harry McCullough ran riot under the Vulcan basket sending the score to 12-3.

Featherstone, although he did not figure in the scoring, was the pick of the Cubs. For the Bearcats the forwards displayed good combination and were ably supported by a solid defense. The line-up were:

Vulcan Cubs—Guards, Flood and Thomas; forwards, Clarke, Featherstone; centre, Johnson.

Antrim Bearcats—Guards, Lackie and Hugh McCullough; forwards, Leslie, Harry McCullough; centre, Martin.

Vulcan Ladies—Guards, Packwood, and House; forwards, MacKay, and Flood; centre, MacPherson.

Antrim Ladies—Guards, Martha Leslie and E. McCullough; forwards, Mary Leslie and V. Martin; centre, R. Martin.

WHEAT POOL NEWS

The Alberta Wheat Pool has fixed July 15th as the closing date for the 1928-29 Pool. There are quite a number of Pool farmers who have still a little wheat on hand and they are advised this must be delivered by July 15th, otherwise it will go in with next year's pool.

The Supreme Court of Canada has decided in favor of the Alberta Wheat Pool contention in the H. W. Keay suit. The Supreme Court judgment sustained the judgment of the Supreme Court of Alberta which was that the matter in dispute was one for arbitration and not for legal action.

The Alberta Wheat Pool has discontinued broadcasting for the summer months, as has been its custom in the past. The Pool will resume radio work this coming fall.

The Canadian Journal of Commerce in a recent issue states: "Despite the large crop of last autumn Wheat Pool members have excellent reasons to be thankful that their crop was not subject to the vagaries of the members of the Chicago and Winnipeg Grain Exchange whose primary object is quite naturally, and under former conditions quite properly, to buy and sell at a profit to themselves."

FARM RELIEF IN CANADA

Canadian railways haul grain at rates that would bankrupt American roads. From Devils Lake, N.D., to Duluth, a distance of 384 miles the rate is 19.5 cents. From Lydiatt, Man to Fort William, a distance of 389 miles, the rate is 14 cents. The saving is over 20 per cent.

From Estuary, Sask., to Fort William the rate is 24 cents. The distance is 1,036 miles. From Bozeman, Mon., to Duluth the rate is 42 cents. The distance is 1,033 miles. The Canadian farmer saves 40 per cent. Similar savings are in effect on the Western route. Canadian railroads are giving their farm customers practical farm relief.

CO OPERATIVE AIMS

It is the conviction of those who are on the inside of things that the sessions of the Alberta Institute of Co-operation to be held in Lethbridge for the four days commencing with Monday, June 24, will be an unqualified success. Certainly no effort is being spared either by the central committee acting through D. M. Malin, director of co-operative activities for the Alberta government, and H. E. G. H. Scholefield, vice-president of the United Farmers of Alberta, or by the many committees set up from the U.F.A. organizations of the city and district to ensure that such is the case.

Registrations are now coming in daily to the office of the registrar, M. L. Freng, at the Lethbridge office of the Alberta Department of Agriculture. From some of the enquiries received it would appear that the purpose and plan of the institute is not yet fully understood by all. It is generally known, however, that the institute is not a society which people are asked to join; but is rather a short course of intensive study of co-operative aims and achievement in connection with the many phases of the farming problem. It has been made possible through the distribution to the Province of Alberta through the Provincial Government of its share of the surplus funds of the Dominion Wheat Board.

Last year only one institute was held, and that at Edmonton. It was a notable success. This year plans have been laid to bring similar advantages home to more people by holding three institutes simultaneously at Lethbridge, Olds and Vermilion. To Lethbridge has been assigned the territory south of Calgary. The experts in the fields of co-operative activity from various parts of the United States and Western Canada will commence an itinerary of the three institutes at Lethbridge on Monday and be routed through to the other two on the succeeding days of the week.

Billeting, entertainment and other committees are preparing to make all those who register for the institute comfortable, and to give them a good time. A special committee will be in charge of juniors between the ages of 17 and 21. The board room for the four days and cost of transportation of a limited number of these young people will be paid out of the funds of the institute; and it is the desire of the committee and the registrar that those who wish to attend get in touch with Arthur Newman of the Dominion Experimental Farm, Lethbridge, in the case of boys; or with Mrs. F. W. King Lethbridge in the case of girls, or with Mr. Freng, the registrar.

For the senior members of the institute, together with speakers and artists, a banquet is being arranged for at the Marquis hotel on the evening of Wednesday, at which Premier Brownlee and Mrs. A. H. Warr, the newly elected president of the U.F.W.A., will speak. As the accommodation is limited, tickets for the banquet, which is free, will be issued till exhausted to those first registered. Registration also entitles the member to a copy of the printed report of the institute, which will synopsise the speeches and discussions.

Other social features will be a picnic at the Experimental Farm on the afternoon of Wednesday, a dance at the Marquis hotel following the banquet, and a big dance at the U.F.A. rally in the Henderson Park pavilion on Thursday, the last day.

More details concerning the institute will be broadcast over CJOE from Lethbridge.

ROUND ABOUT

As usual, the French monoplane "Yellow Bird," carried a stowaway, on their successful trans-atlantic trip. He was Arthur Schriber of Portland, Maine, and no doubt he will be gathered into the movies.

Prediction regarding future changes in Ottawa place Hon. Robert Forke in the Senate to be succeeded by Crerar; Hon. Charles Stewart to go into the International Joint Commission, and to be succeeded by Robert Gardiner; and Hon. Motherwell to become Lieut. Governor of Saskatchewan.

Robert Stevens of the International Union, Winnipeg, states that the wages and working conditions of painters in Alberta are better than those of any other province.

The Alberta Motor Association expects to handle 80,000 tourists this year and auto camps at Edmonton, Calgary, Lethbridge, Macleod and Medicine Hat are all being extended. According to reports from Ottawa the Federal Government is bringing into effect legislation which will greatly reduce mixing of wheat in terminal elevators. The Wheat Pools have strongly urged that the government should take steps to limit the mixing evil.

Some 160 girls and boys have been in attendance at the recent farm young people's week at the University of Alberta. Interesting lectures and demonstrations dealing with the various phases of farming and home-making were provided by members of the University staff and a number of enjoyable features of an entertaining nature rounded out what has come to be considered an important annual event in the life of the rural young people of the province.

NEWS OF INTEREST

Hertzog, the Nationalist leader, in South Africa, was elected by 76 as against J. G. Smuts with 61 members.

A cow moves her jaws 41,000 times each day. But she has something to show for it at the end of the day.

Agriculture is not a single industry, but a combination of many industries with a multitude of problems.

Our standards of living in Canada are high indeed if we are to judge by the height and magnificence of all the new hotels.

Prof. Sternberg of the National Museum will conduct searches through the Cypress Hills district for fossil remains of dinosaurs.

The five cent gasoline tax is being levied in Prince Edward Island, Nova Scotia, Quebec and Ontario, as well as in Alberta, and it is all supposed to go toward road upkeep.

"We will fine Germany \$120,000,000," said Lloyd George in 1918. Under the young plan, the Allies settle for \$9,000,000,000. A clear case of politics versus common sense.

If many more conferences are held with regards to war claims on Germany, that country will not have anything to pay. The Allies have cut it down from \$125,000,000,000 in 1919 to \$9,000,000,000 in 1929.

Fires in Alberta took a toll of twenty-five lives and a property loss of \$3,737,619 in 1928. There were 2468 fires as compared with 1845 in the previous year, while the losses show an increase of \$1,400,000.

The Alberta Motor Association is pressing the government to earmark the gas tax and license tax, expressly for roads. From these two taxes alone, the government will probably receive a sum greater than that which has been appropriated for all highway purposes. The government was complimented on its fine work in connection with Jasper Highway and was urged to improve the Lethbridge-Taber trail.

General Bramwell Booth, former head of the Salvation Army, died at his home in England on June 16. The great success of this great religious body, has been credited, not only to William Booth, the father, who was a great zealot, but also to Bramwell Booth who had remarkable genius for organization and executive detail. All over the world branches of the Salvation Army are holding memorial services in honor of the great chief.

Upwards of 10,000 acres of potential oil lands were blanketed the other day at the Dominion Land Office at Lethbridge. The land lies north of Lundbreck station extending as far north as the forest reserve, and into the reserve. Much of this structure was leased back in 1914 and allowed to lapse. It is understood the block is intended for large British oil interests, but names have not been disclosed.

Harvest with an Advance-Rumely Combine

MAKE 15 to 20 CENTS More Per Bushel

Farmers tell us of an extra profit of 15 to 20 cents per bushel they get by harvesting with an Advance-Rumely Combine. And because this Combine gets all the grain, the yield is one to three bushels more to the acre.

Harvesting this modern way cuts out waste motions—no binding, shocking and hauling from field to threshing. Take an Advance-Rumely Combine into the field and out comes the grain ready for market or storage. Once over the field and harvesting is done. No more big crews—no waiting your turn—no heavy harvest expense. You can wait 'till grain is fully ripened on the stalk—wait 'till it's in condition to get the best grade at the market and then harvest in a few days an acreage that took weeks by the old way.

You can make this extra profit on this year's crop if you prepare for harvest now! Write today for complete information and typical letters from enthusiastic farmers telling of the extra profits they are making.

In April 1929 the Turner Valley produced 54,904 barrels of crude naphtha during the month. This is at the rate of over 830,000 barrels annually compared with 481,000 in 1928. From the present rate of increase it seems likely that the Turner Valley will produce well over 1,000,000 barrels this year.

During recent electrical storms, the McIntyre ranch of Lethbridge lost 14 head of purebred yearling Herefords from a bolt of lightning. As yearlings they were valued at \$150 a head. They were bunched near a wire fence and it supposed that the bolt struck the fence and spread to the cattle.

COLE & ROGERS SHOWS HERE NEXT TUESDAY

Community life, is due for a genuine upsetting at Vulcan, Tuesday, June 25th when Cole & Rogers Circus comes to town for two performances that day. There is nothing short of a visit from a circus that so changes and disarranges the social and economic habits of the countryside—for there is nothing like a circus to appeal so generally to the hearts of normal humans big and little.

Cole & Rogers Circus comes heralded with just enough heroics to make it foretell a real circus event. There are no extravagant claims to greatness, no false declarations of magnitude, no superlatives to clog the story in its telling. Cole & Rogers Circus promises good entertainment; promises novelty in its program of events and undertakes to assure lovers of thrills and strange presentations an afternoon or evening of true enjoyment.

There will be an excellent collection of wild and rare animals.

Feats of horsemanship, exhibitions of animal training, and an attractive array of interesting and odd performances will lend novelty to the program. Among the rare and curious sights will be the tiny horse so appropriately named "Pewee"—weighing only 40 pounds, standing 26 inches high and glossily shining in its mouse-colored hide, a perfect horse done in miniature. Indeed "Pewee" is said to be the smallest horse in the world and if this be not entirely so, "Pewee" is surely the smallest horse our townfolk as ever likely to see.

ENSIGN NEWS

Miss V. McCannel spent the week end with her parents at Calgary.

Mr. and Mrs. A. L. Finlayson were visitors to Calgary for a few days.

Mr. and Mrs. W. Mullens and Beatrice motored to Calgary, Thursday.

Mr. and Mrs. Alex Smith and Miss M. Paton motored to Calgary last week.

Of all vegetation in the fields twitch and sow thistle seem to be thriving best.

Eighteen kiddies had a good time Saturday afternoon, celebrating Leon and Southgate's birthday.

Mr. J. Masse left for Calgary Friday, to attend the funeral of his late friend Mr. A. Talbot.

Mrs. F. Lockett and son from Portland, Oregon, are visiting at the home of her sister, Mrs. J. A. Prater at Brant.

Tennis players will find the membership list in Mr. P. Bourque's store. We want to see it well filled with the names of all subscribers.

The bible class studies were held at the home of Miss I. Williams. A very interesting evening was enjoyed by the members, Mrs. A. Ruark conducting the meeting.

Mrs. P. O'Dwyer returned from Banff last week after spending a few days with his sister, Mrs. McIlhargey and Mrs. P. O'Dwyer who are remaining at Banff for some time.

Ensign Church services held every Sunday afternoon in the school house Sunday school at 2:30 p.m. by Mrs. A. Smith. Services at 3 p.m. by the Rev. J. J. Farquhar. Everybody welcome.

Mrs. K. Tolman and Emily, are leaving for Arrowwood this week where they will open a tea room and beauty shop. We will miss them but wish them all success in their new undertaking.

The Ensign Ladies Aid held their silver tea in the pool hall, Friday afternoon. Being a busy time for the farmers, the usual crowd were not all there although after all expenses were paid, it brought a very pleasing amount.

The Ensign W. I. held their regular meeting at the home of Mrs. L. Chapman, there being fourteen members, and one visitor present. Mrs. J. Ferguson, president, opened the meeting by all singing the Maple Leaf, followed by the Creed. Roll Call was answered with name and birthplace. Discussions and arrangements for picnic for members and families, the date to be made later. An interesting paper was given by Mrs. N. J. Dwigans on Pioneer Days. Refreshments were served by Mrs. W. Mullens and Miss M. Paton. Next meeting to be held at Mrs. Dale Campbell's, August.

READ AND WEEP

People either like onions or they don't. Those who do, will be interested in learning that Bermuda onions are being successfully grown in Canada. These are the gentle brand of onions, which cheer without asphyxiating. In 1927 the Bermuda onion was experimented on successfully both in B.C. and Ontario. And in 1928 a much larger acreage was planted.

The success of Bermuda onions both in B.C. and Ontario was very satisfactory—curing well and producing about eight tons per acre.

Last year B.C. onion pool prices were \$46.61 a ton which was considered good. B.C. and Ontario are well adapted to onion growing, and as Canada imports this product heavily from U.S., Egypt, Spain, Australia, Japan and Bermuda, there is a big home market to be supplied.

KIRKCALDY NEWS

Mrs. Robert Robbie has returned to the farm where she will spend the summer.

The Kirkcaldy W. I. met at the home of Mrs. A. Roebuck on June 13. The meeting opened with community singing, after which the members repeated the creed. After a short business session Mrs. Maisey's report on the annual convention which took place at Edmonton, was read and proved very interesting indeed. Mrs. Fox and Mrs. Dunbar read essays they had prepared on the W. I. creed. These proved very interesting and very well prepared. The members acted as judges and decided both of the members had done very well. They drew for the winner and Mrs. Boose presented Mrs. Dunbar with a beautiful vase. The meeting adjourned and a dainty lunch was then served by the hostess.

Born to Mr. and Mrs. Keestra of Kirkcaldy on Tuesday, June 11, a son, Miss Belle McFall is spending the week end with her aunt Mrs. Hawkins of Reid Hill.

Mr. Mylo Swanson was a visitor at his sister's Mrs. Boose, one day last week.

Mrs. Mower and children of Barons are spending a few days at the home of Mr. and Mrs. J. Fox.

On Wednesday, June 12th the Peppy Girls Club of Kirkcaldy gathered at Mrs. Brown's. The chief item of the afternoon was presenting Miss Mabel Laing with a miscellaneous shower. Many nice gifts were received and with them wishes for a happy future.

The Kirkcaldy W. I. entertained their husbands and families at a lawn party on Friday evening, June 14th. The evening opened with outdoor games such as croquet, baseball, and horse shoes. About nine o'clock Mrs. Boose sold stakes at 5 cents each for claims on a silver mine. The idea was to plant your stake nearest the silver mine. The one getting the nearest to the mine won the silver. Mr. Dunbar succeeded in staking his claim nearest the mine and after much hunting found a silver dollar.

The party met in the hall for the rest of the evening's entertainment. The programme opened by a few old time songs much to the delight of all. Miss Margaret Roebuck rendered a solo entitled "Jeanine I Dream of Lillies Time." Miss Gertrude Roebuck rendered a piano solo entitled "The Song That Reached My Heart." Mrs. Maisey and Mrs. Boose gave a contest which consisted of noted men of the world. A box of candy was presented to the winning side. The Institute next raffled off a quilt. Tickets were sold for 10 cents a chance and you must guess how many knots were on the quilt. Mrs. Laing proved the lucky guesser. The evening was concluded with a dainty lunch served by the ladies.

Hon. Charles Stewart has been offered the chairmanship of the Canadian Grain Board at \$12,000 per year. He has had a fine record in public life as Charles Stewart. First, Premier of Alberta, Minister of Interior and now prospective chairman of the Grain Board.

Down in Stratford someone has found a copy of the Mitchell Advocate of June 24, 1870. The chief interest in the paper, as present day reading, centres in the advertising columns. Fancy delaines were on sale at a local store at 8 to 10 cents a yard, and striped shirting at 12½ cents. Two yards of factory cotton were obtainable for 12½ and three yards of toweling for 25 cents. Paper collars for men were advertised at five cents a box, and ladies stockings could be purchased at three pairs for 25 cents.

BERRYWATER NEWS

The ladies of the Kirkdale local entertained members of the Berrywater U.F.W.A. at the home of Mrs. J. McRoberts on May 2nd and as in previous years, a very enjoyable afternoon was spent by the many ladies who were present. The instrumental, solos and quartettes were excellent, and the two contests caused much merriment, the winners well deserved the pretty and useful prizes provided. The hostess assisted by the other Kirkdale ladies, served a delicious lunch, and all expressed pleasure at being present at such a sociable reunion.

Mrs. F. Noble was hostess at the regular meeting of the U.F.W.A. on May 22nd. During the business part of the meeting, a donation was unanimously voted to the Woods' Home. A paper on legislation was given by the Convenor, Mrs. N. Campbell. The roll call was Sing, Say or Pay. Mrs. Oldfield gave a short reading and Miss Jessie Sinclair was elected to attend the Young People's University Week at Edmonton. A pleasing feature of the afternoon was a surprise shower of useful gifts presented to Mrs. Geo. Strange, a recent newcomer from Sonneret, England, by members and friends. At the close of the meeting the hostess served a dainty lunch.

It has been remarked that the Berrywater U.F.W.A. must be dead. We are still quite active and very much alive, of which the good attendance and regularity of our meetings is evidence.

Miss Davidson, our municipal nurse held a baby clinic in the school on June 1st. Miss Davidson is now away acting as a member of the travelling clinic staff.

Mrs. B. Mensinger and small daughter are visiting relatives at Grand Prairie.

Mr. and Mrs. L. A. Douglass were recent visitors to High River, calling on Miss Gilhooley, a well remembered former teacher of Berrywater school.

Mr. and Mrs. J. K. McLean were visitors to Calgary recently.

Mrs. Colby Carr of Okotoks, has been visiting friends and relatives in the district during the past three weeks.

On June 6th members of the local U.F.W.A. were entertained by the Buffalo Hill U.F.W.A. at the home of Mrs. R. S. Shatto. Several members of the Sunset Valley local were also present, there being a record attendance of ladies from far and near. A short business meeting was held, followed by a splendid program, consisting of solos, instrumentals and a reading given by Miss Ballard in her usual pleasing style. The contest was a novel one, the prize winner being Mrs. B. Mensinger who tied with Mrs. F. Base. A delicious lunch was served by the hostesses, and an enjoyable social half hour was spent over the tea cups, old friendships being re-newed and new acquaintances made.

The U.F.W.A. met at the home of Mrs. Blanchard on June 12th, there being a good attendance of members and visitors. Mrs. Oldfield, vice president, presiding. During the business part of the meeting, letters of thanks were read by the secretary, Mrs. Mills from Mrs. Douglass Sr., and Miss Del la Carr on behalf of her late sister and self, for flowers received and while patients in hospital. Mrs. H. C. Douglass' resignation as president, was regretfully accepted. Mrs. Oldfield being elected as president, and Mrs. McLean as vice president for the remainder of the year. A report of the last rest room meeting held in Vulcan, was given by the representative and Mrs. Ames gave a reading on the curative qualities of laughter. The roll call was answered by hints on quick lunches. The meeting closed with community singing, the hostess serving a delicious lunch. Members were pleased to hear that Mrs. D. B. Sims had benefited by treatment at the municipal hospital and hopes were expressed that her health may be greatly improved. The next meeting is to be held at the home of Mrs. Clifford Love on June 26, when it is hoped that Miss Sinclair will give her report of the University Week Conference, the roll call to be answered by mother's maiden name and birthplace.

Mrs. Bill Little, underwent a minor operation in the Vulcan Municipal Hospital early this week. Her many friends wish her a speedy recovery.

Miss Ella Hoge who is leaving very shortly for Nanton, sold her business to Miss Paulene Lucas who took complete charge of same on Tuesday.

VULCAN CADET COMPANY

Thursday the 13th, saw the local company on parade for the first time this year under the leadership of H. Dorrington, instructor in charge of Vulcan Company. All ranks showed up well, including many new recruits, the latter swelling the total to thirty-five all told on parade which is a credit and the feeling is that their number can and will be greatly increased in the near future. The training Thursday included gyms, foot and squad drill and with a few more parades, the company ought to be as smart as they were on inspection last year.

Order for the company for the week commencing 24th: Orderly Sergt for week, Sergt. Vaughn; Company parade 7 p.m. Tuesday and Thursday, Dress, rifles, less uniform; Training, gymns, squad and foot drill, semaphore and rifle exercises. All ranks are hereby duty warned that it is essential that they should be on parade on time on every occasion when a parade is called.

(Signed) H. Dorrington
In charge Vulcan Cadet Coy.
